

Capability Statement

Company Overview:

Founded in 1997, **Mountain CNC** (CAGE Code: 1VYF7) is a premier precision CNC contract manufacturer specializing in prototype and production machining. Holding AS9100D and ITAR certifications, we deliver high-quality machined parts across diverse materials for industries including Aerospace, Defense, Electronics, and Space. Our commitment to excellence ensures competitive pricing, timely delivery, and customer satisfaction. **Mountain CNC** is poised to expand its business to large companies across a myriad of industries, offering a reliable CNC machining partner equipped to grow and scale alongside them for decades to come.

Core Competencies:

- Advanced Machining Services: Offering a broad spectrum of services from prototype development to full-scale production, Mountain CNC is equipped to handle complex projects across various material types, specializing in both metal and plastic parts.
- Technological Superiority: Our facility features brand new, state-of-the-art 4- and 5-axis milling machines, fully equipped dual-spindle live tool lathes with bar feeders and part catchers, as well as the recent addition of advanced laser marking and waterjet cutting machines. These investments in cutting-edge technology allow us to enhance our product and service offerings, enabling us to handle a wider range of in-house projects and deliver even greater value to our customers.
- Quality Assurance Excellence: At Mountain CNC, our commitment to precision and quality is exemplified by our state-of-the-art inspection equipment, including our *Hexagon 9.15.8 - Scan+ Coordinate Measuring Machine (CMM)*. This advanced system, featuring high-performance tactile scanning and multi-sensor capabilities, enables us to measure any part from any customer with unparalleled accuracy and efficiency. Combined with our top-tier *Keyence* inspection tools, our quality assurance processes ensure that every part meets the highest industry standards, delivering flawless results that reflect our dedication to excellence.
- Expert Team with Innovative Spirit: Our team, boasting over 400 years of combined machining and manufacturing experience, is not just skilled but highly innovative, constantly seeking ways to improve and streamline our processes. This forward-thinking approach is embodied in our average team age of 37, illustrating a blend of experience and dynamic innovation.

Strategic Advantages:

- Respected Industry Experience: Since 1997, Mountain CNC has honed our expertise and cultivated a deep understanding of our clients' needs. This extensive experience enables us to anticipate and adapt to the evolving demands of the machining industry, delivering tailored solutions that consistently meet and exceed expectations.

- Commitment to Client Satisfaction: At Mountain CNC, we relentlessly focus on delivering quality machined parts that meet the exact specifications and delivery deadlines of our customers. Our proven track record as a subcontractor for top-tier Department of Defense (DOD) and industry-leading clients demonstrates our ability to satisfy the most stringent standards and complex requirements. We are relentless in our pursuit of excellence, ensuring every part is crafted with precision and delivered on time, consistently exceeding client expectations.
- Investment in People and Technology: Since the transition of ownership in 2021, Mountain CNC has invested heavily in advanced machinery, quality assurance inspection equipment, and top-tier talent. We have also become experts in *Paperless Parts*, the leading Ai-enhanced digital quoting software, and *Fulcrum*, the premier Ai-enhanced manufacturing ERP system. Our technological prowess and skillset have earned us the prestigious designation as a 'Beta Testing Power User' by both innovative companies, solidifying our leadership and commitment to innovation in the industry.
- Culture of Excellence and Collaboration: At Mountain CNC, we foster a culture where teamwork, excellence, and the drive to exceed customer expectations define everything we do. This ethos ensures that we remain at the forefront of the industry, ready to meet the challenges of tomorrow.

Looking Forward:

As we look to the future, Mountain CNC is committed to maintaining its trajectory of growth and innovation. Our investments in technology and talent are aligned with our strategic vision to not only meet the current demands of our customers but to lead the way in the machining industry. With a team poised to tackle the challenges of a rapidly evolving market, Mountain CNC is dedicated to being a partner of choice for years to come.
